## **Weekly Newsletter from 25-1 March**

**Must read each line of first part very carefully...**

Dear Members,

I have been waiting for the North Node to move into Gemini for the last 15 years, because this North Node will play the most crucial role in every human being's life. This North Node will make new millionaires and will give birth to new business cycles.

I knew that once North Node moves into the house of Gemini then my members or my predictions may achieve the highest success rate, and we are just two weeks away from this happening. Over the last three years my astro cycle was moving up and down, so I always remained very confused. I had my biggest failure in predicting the outcome of Brexit and the US election, because over the past three decades I never experienced such failure in making any major predictions. Yes, I have to go through these ups and downs because I am always part of nature.

The astro time cycle is changing, and I strongly recommend taking every prediction very seriously from the 8<sup>th</sup> of March because the most important time cycle is starting.

I need to be very accurate and that could only happen when my astro cycles are positive. If I am going through a negative astro cycle, then I will be able to advise you with a great degree of accuracy. I always say, that every human must go through up and down cycles, and many have great longer-term positive cycle's, and that's why they enjoy success for the longer term or throughout their life. In some people's lives good times come for the short to medium term, so they just flow the up and down cycles. In some people's lives, negative time cycles remain for the longer term, and it doesn't matter what they do, and they keep struggling to achieve success.

We are all the same human being, but we are all born with different destinies and this is the most important part for individuals, but sometimes positive astro wave cycles take place in the world due to powerful astro combinations, and if you jump in that flow of a positive wave

then you can make the most amazing achievements. What is coming from the 8<sup>th</sup> of March is the same kind of big wave that you need to jump into without analyzing it too much, otherwise you will miss one of the biggest lifetime opportunities.

I am 52 and, I spent almost 42 years understanding the astro cycle's, and let me tell you that this is the most amazing study (thanks to my maternal grandfather). Yes, it is too complex a study and it must be because it reveals a hidden part of nature, which is connected to every human being. Every human beings actions bares results; it is the brain that causes those actions; and the bring it is part of the Mind-intellect, heart-emotion, and soul – the connection between the heart and mind. You know that I don't meet people, and that is because I spend most of my time in Santa Barbara researching this subject, and the rest of the time I spend with family.

**Let me tell you in short** – I try to understand how the majority will act, how their brain will make decisions, because of what we see in the market or in the world is a mirror reflection of our actions. If you read the astro cycles closely, then you can reveal what will happen in the coming time. In 1996 I predicted a great bubble in internet and technology stocks, because I saw a big wave coming. In 2001 I saw metals, energies, and commodities era starting, only because I saw millions of people jumping into commodities, and fund managers pumping money into commodities, and who doesn't remember these predictions.

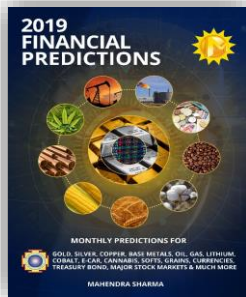

In 2012 in one of my weekly newsletter's I mentioned that a great gambling time is starting in stocks so invest in frontline tech, banking, and biotech stocks blindly, and you would make a fortune, and it happened.

Writing this first chapter only has one moto, that you need to pay close attention to our predictions from the 8<sup>th</sup> of March. I may bring my son Ronak along with me as I need him to know how to help write more and work hard during this most amazing rising journey in your wealth from here onwards. You should get ready and bring all your positive energy back. You need to come back strongly if you had a difficult time in the last few years because this coming cycle will be a blessing.

I trust my subject 100%, and even more than my life, so get ready and we shall have a great time for the next 18 years for here onwards, and after those 18 years are over I will stop my work.

In 2013 I stated that from 2016 to 2018 won't be a great astro time cycle for me, and that proved very accurate because I didn't achieve results in my predicting career between 2016-18, which is not me. Wall-Street and Zurich's Bank street knew the power of our work, and that's the reason they always avoided going against our theory from 2001 to 2016. The Brexit outcome and Trump results added a big hole in our theory for the first time in the last three years, I am trying to repair the damage, but now the time has come to give birth to our theory because I want 100% accuracy from here.

I am sure most of have bought book, and I am recommending to reading this year book on regularly basis, at least once in a week. Please recommend to others if you feel that this book may help other in making trading and investment decisions.

Stocks like **TTD**, **OLED**, **BOOM** moved higher sharply higher by 20 to 30%, and **ROKU** also moved higher on Friday. **STMP** lost more than 60% value on Friday, and this was in our short list six months ago around at \$255 to \$275, yesterday it closed at \$83, and it was down \$115.

A few of our favorite stocks like **LSCC**, **EXTR**, **CIEN** have been performing amazingly well in the last three months.

Today, I just saw CNBC copy our six month back headline about Cannabis stocks, <https://www.cnbc.com/2019/02/22/forget-bitcoin-cannabis-is-the-place-to-go-says-us-wealth-advisor.html>

One of the biggest era's in Cannabis is on the way, just two weeks away from my Son's wedding, and then I will back in the USA. I think you must read this week's newsletter as I am preparing traders to start placing trades which will provide amazing returns, so just wait for three weeks.

**Platinum and Coffee**, both are great trades.

On Friday we don't see oil holding value, but natural gas will move higher so buy more gas positions. Buy some **UGAZ** around \$31.00 with price target of \$38.80 level. Remember it is very high leverage etf, in the month of December when gas moved sharply higher, it went toward

\$260 and gas around \$4.95, same time we recommended aggressive at above \$4.80 with price target \$2.88.

I will write final note on the North Node any time around the 10<sup>th</sup> of March, because my son is getting married on the 8<sup>th</sup> of March, so I will be busy with this event from 4<sup>th</sup> March to 9<sup>th</sup> March.

**On Monday Scorpio Moon will start around 6.00 am New York time so remember this. I don't recommend any aggressive trade during Scorpio Moon, so please finish pending work. USA Market is still in positive trend, we recommended bottoming out at 2315, with target of 2778 and 2843, now 2843 is pending to achieve. We are still not recommending short, yes profit booking won't harm at higher levels.**

**Reading daily range:** When we predict a **weaker trend** it means that prices can break on the lower side and can trade below the predicted lows.

When we predict a **positive trend**, it means that the daily price can break on the upside and can trade higher than the predicted price.
